

CasaTunes XLi

CasaTunes XLi is a simple “out of the box” whole house audio solution for an experienced integrator looking for a cost efficient whole house audio system for their clients. Included in the box is an advanced DVD-audio quality PCI-e sound card with a built in matrix switch that has the capability to output music in up to 6 rooms. To complete the installation add a CasaTunes XLa or other multi-channel amplifier and speakers of your choice.

With CasaTunes XLi, you can listen to as many as five different audio programs in up to six rooms. CasaTunes XLi has four built-in, ready-to-go internal music sources and an input for one external source. Each internal source is able to play back music from your iTunes collection, music stored on your Microsoft Windows Media Center PC, Windows PC or any networked storage device, as well as music from iPods and Internet radio. The external sources typically come from an AM/FM tuner, XM or Sirius satellite radio or other external music source.

Features

- Listen to five different audio programs in up to 6 different rooms or the same music in perfect sync in all rooms
- Four built-in ready to go internal music sources able to play back Music stored in Microsoft Windows Media Center, on your PC, Networked storage devices, iTunes, iPods, and internet radio
- A single external source (AM/FM tuner, XM or Sirius satellite radio, or other external music source)
- IR Control
